

Ticket ID	Alert Message	Severity	Details	Ticket status
A-2703	SERVER-MAIL Phishing attempt possible download of malware	Medium	The user may have opened a malicious email and opened attachments or clicked links.	Escalated ▾

Ticket comments
After investigating the sender's email, it is clearly a phishing attack. The sender misspelled several words and pretended to be an applicant. They attached an executable file claiming it is their resume. The file has been confirmed to be malicious via reports in VirusTotal. Ticket should be escalated for further action.
